BISHESH SUNAM

Full Stack Developer

bishesh.sunam@gmail.com 022-405-0486 linkedin.com/in/bishesh-sunam-89a807115

SUMMARY

Full Stack Developer with 4+ years of experience building scalable web and enterprise applications. Proficient in JavaScript ecosystems (Vue, React, Node.js, TypeScript), backend development (Laravel PHP, C# .NET), SQL database design, and cloud deployments. Experienced in building and integrating APIs, ERP systems, and delivering high- performance solutions. Recognized for problem-solving, cross-functional collaboration, and excelling in Agile environments.

WORK EXPERIENCE

Software Developer, *Islington group (Boundaryline, Heritage, BTI & Fentec Ltd)* 01/2023 – Present

Technologies

Vue.js, Nuxt.js, JavaScript, TypeScript, SuiteScript, NetSuite ERP, Laravel (PHP), MySQL, REST APIs, WordPress, Google Cloud Platform, Git.

Key Projects & Achievements

Enterprise CRM & NetSuite Integration

- Developed a comprehensive CRM platform integrated with NetSuite ERP, centralising customer data and business workflows.
- Integrated NetSuite's LLM-powered chatbot capabilities to support AI-assisted workflows.

NetSuite Performance Optimisation

- Led an optimisation initiative, reducing record-page load times by 29% and top-10 operational wait times by 35%, saving approximately 380 hours annually.

Enterprise Applications & Dashboards

- Developed NetSuite SPA dashboards with proposal pipeline Kanban boards to streamline sales workflows.
- Built role-based admin portals with KPI dashboards and integrations to NetSuite, AskNicely, and BWare.
- Developed marketing analytics, warehouse metrics, NPS, and operational reporting dashboards.

Business Process Applications

- Developed internal applications for credit control, order tracking, and exception management, improving operational efficiency and workflow visibility.

Web Development & E-commerce

- Designed and delivered custom websites and e-commerce platforms, including dynamic quotation systems, email integrations, and interactive maps.
- Improved website performance, responsiveness, and technical SEO.

Responsibilities

- Design, develop, and maintain scalable enterprise applications using modular architecture.
- Build NetSuite customisations, SuiteScript solutions, ERP integrations, and third-party API connections.
- Develop internal tools, dashboards, and reporting solutions to improve business operations.
- Collaborate with cross-functional teams to translate business requirements into technical solutions.

- Manage deployments, hosting infrastructure, and ongoing application performance optimisation.

Software Engineer, *Attainate (Short Term Contract)* 03/2022 – 07/2022

Technologies

Vue.js, Node.js, Google Cloud Platform, Firebase, Firestore, Cloud Functions, SendGrid, JavaScript, TypeScript, Git, Jira

Key Projects

- Subscription-Based SaaS Platform
  Built a scalable, subscription-based SaaS platform from wireframes to production, including domain setup, subscription management, user registration, and real-time data interactions. Integrated SendGrid for automated transactional emails, and applied Agile workflows with Jira to deliver features efficiently and ahead of deadlines.

Responsibilities

- Design and implement the full-stack architecture for a subscription-based SaaS platform.
- Build and maintain front-end and back-end functionality, connecting Vue.js interfaces to Firebase/Firestore services.
- Integrate third-party APIs, including SendGrid, to automate emails and improve user engagement.
- Manage production deployment, domain setup, and cloud-based hosting for scalability and reliability.
- Participate in Agile workflows, including daily stand-ups, sprint planning, and Kanban boards, ensuring timely delivery of features.
- Collaborate with stakeholders to translate business requirements into production-ready solutions.

Software Developer, *Aspire2 International (Short Term Contract)* 01/2020 – 06/2020

Technologies

Unity, C#, GitHub, 2D Game Development, Animation

Key Projects

- 2D Educational Game – Māori Culture
  Designed and developed a Unity-based 2D educational game introducing Māori culture to international students. Created interactive game assets and animations, achieving smooth performance across devices while maintaining engagement and educational value.

Responsibilities

- Design and implement game mechanics, interactive elements, and animations using C# in Unity.
- Create and integrate visual and audio assets to enhance the educational experience.
- Maintain version control and collaborate using GitHub.
- Perform testing, debugging, and optimisation to ensure smooth gameplay and cross-device stability.
- Translate educational content into engaging game-based experiences for international students.

EDUCATION

Bachelor of Computing Systems (Software), *Unitec Institute of Technology* 2021 – 2023
Developed full-stack web applications utilizing Python, Django, React, Node.js, MongoDB, Express, and MapBox API.

Diploma in Computing Level 7 (Software), *NTEC* 2019 – 2020
Built a Restaurant Management System with C# .NET and SQL Server, featuring POS, inventory, and reporting modules.

Diploma in Computing Level 6, *NTEC* 2015 – 2016
Developed advanced skills in database design and multi-user system administration. Applied security principles to protect systems and data, and managed networked environments. Gained experience in designing business-focused IT solutions and preparing technical proposals.

Diploma in Computing Level 5, *NTEC* 2014 – 2015
Built a strong foundation in IT systems, networking, and computer hardware. Gained hands-on experience assembling and configuring PCs, installing operating systems and software, and understanding the role of IT in business environments. Developed the ability to present technical information clearly and effectively.

SKILLS

Technical Skills
JavaScript, TypeScript, C#, PHP, React, Vue, Nuxt, Node.js, WordPress, MongoDB, SQL, Tailwind CSS, CI/CD, Jira, GitHub, Google Cloud Platform

Soft Skills
Problem solver, self-motivated, leadership, adaptable, collaborative

Certifications/ Awards

ICAgile Certified Professional

Winner - Top Capstone Project (Web App Development)
